Premature births by country of birth of mother, NSW 1994 to 1998

Country of birth
Australia
United Kingdom
New Zealand
Italy
Former Yugoslavia
China
Vietnam
Lebanon
Philippines
Greece
Hong Kong
Germany
India
Netherlands
Fil
South Africa
Malaysia
Malta
Poland
Egypt
United States
All

Per cent

Note: Births where gestational age was less than 37 weeks were classified as premature births. Infants of at least 400 grams birth weight or at least 20 weeks gestation were included. Upper and lower limits of the 95 per cent confidence interval for the point estimates are shown.
