The diagram illustrates the comparison of MIP-1α, MIP-1β, and RANTES levels between EU and UC groups. The x-axis represents the patient groups, and the y-axis shows the concentration in ng/ml. The box plots indicate the median, quartiles, and outliers for each group.

- **MIP-1α**
  - EU: (p=0.46)
  - UC: (p=0.15)

- **MIP-1β**
  - EU: (p=0.007)
  - UC: (p=0.15)

- **RANTES**
  - EU: (p=0.15)
  - UC: (p=0.15)
