A. Western blot analysis showing expression of Flag and α-Actin in different groups.

B. Graph representing percent cell viability across different groups.

C. Graph showing luciferase units per μg total protein for Vector, PPM1A WT, and PPM1A MT.

D. Graph showing luciferase units per μg total protein for Vector, PPM1A-WT, and PPM1A-MT, with significance levels indicated.

* p < 0.05

** p < 0.005
