The bar chart shows the mean DTC (%) for younger and elderly groups across various activities: walk + spell, walk + shape, walk/n + shape, walk/n + button, walk/n + button + detect, treadmill/o + detect, walk/o + memo, walk + check/g, walk/o + check/g, and walk/o + check/gw. The y-axis represents the mean DTC (%) ranging from 0 to 40, while the x-axis lists the different activities. The chart indicates a comparison between the younger and elderly groups for each activity.
