Ankle velocity (% baseline) vs. Stride number

**a.** Single subject

**b.** Group data

---

**Ankle velocity**

- CONTROL
- FORCE FIELD
- POST

**Stride number**

0 100 200

**Mean velocity difference (∆%)**

- FORCE FIELD
- CATCH
- POST

**Epoch**

- early
- late
- 1st
- last

---

* indicates significant difference

---

**Note:** The graphs represent changes in ankle velocity and mean velocity difference across different epochs and conditions.
