Ankle Power (W) vs. Gait Cycle (%)

Graph A: Ankle Power (W) over the gait cycle. The graph shows the power generated and absorbed by the ankle joint during different stages of the gait cycle for No AFO, Standard AFO, Flexible RP AFO, and Rigid RP AFO.

Graph B: Bar chart comparing peak ankle power (W) for Peak Power Absorption and Peak Power Generation for No AFO, Standard AFO, Flexible RP AFO, and Rigid RP AFO.
