Figure 1.

(A) Sero-status and IL-28B mRNA expression

- No infection
- HTLV-1 mono
- HCV mono
- Co-infection

Median 5.2 10.6* 3.9*** 2.8**

(B) IL-28B genotype and IL-28m RNA expression

- TT
- TG+GG (all cases)

Median 4.3 3.8

Open circle; samples with 40 or more of the relative expression
Closed circle; samples with less than 40 of the relative expression
A ~ D: the same samples between panel (A) and (B)
