4206 persons participated

145 persons were excluded because of severe visual or hearing impairment.

MMSE 24 or more (3847 persons)

MMSE 23 or lower (214 persons) the low MMSE-score group

Recall 3 or 2 (3696 persons) the control group

Recall 1 or 0 (151 persons)

GDS 5 or less (121 persons) the MMI group

30 persons (GDS 6 or more) were excluded due to the likelihood of a low Recall-score induced by depressive symptoms.
