**Prospective observational study**

- **TOPICAL TREATMENT required**
  - Prescribe topical treatment
    - Week 2
      - Outcome assessment*
        - Normal care as required
          - Outcome assessment*
    - Week 6
      - Outcome assessment*
        - Normal care as required
          - Outcome assessment*
    - 6 months
      - Outcome assessment (unless already healed)

**Randomised controlled trial**

- **Decide with patient on best treatment**
  - **SYSTEMIC TREATMENT required**
    - Oral prednisolone
      - 0.75 mg/kg/day
      - n = 70
    - Oral ciclosporin
      - 4 mg/kg/day
      - n = 70
    - Week 2
      - Outcome assessment*
    - Normal care as required
      - Outcome assessment*
    - Week 6
      - Outcome assessment*
    - Normal care as required
      - Outcome assessment*
    - 6 months
      - Outcome assessment (unless already healed)
