Screened Positive Patients
N = 254

Excluded patients:
- Unfit for study = 17
- False negative = 36
- Discharged = 9
- Refused = 30
- Pilot = 4

Control = 75

Three Month Follow-up:
- Face to face = 56
- Postal respondents = 1
- Telephone = 0
- Information from relatives = 0
- Lost to follow-up = 11*
- Died = 4
- Refused = 3

Twelve Month Follow-up:
- Face to face = 46
- Postal respondents = 2
- Telephone = 3
- Information from relatives = 1
- Lost to follow-up = 9
- Died = 11
- Refused = 3

Completed Trial = 52

Intervention = 79

Three Month Follow-up:
- Received BAI = 75
- Discharged before BAI = 2
- Refused BAI = 2

Twelve Month Follow-up:
- Face to face = 49
- Postal respondents = 4
- Telephone = 4
- Information from relatives = 1
- Lost to follow-up = 12
- Died = 4
- Refused = 5

Completed Trial = 54
