Figure 3. CONSORT Flow Diagram

Notes
i) No current clinical diagnosis of CFS/ME and no current Oxford diagnosis of CFS/ME will be reported as no current Oxford diagnosis of CFS/ME.
ii) Treatment received will be reported as those who received a minimum adequate dose (see Departures from Randomised Intervention Policy).
iii) Loss to follow up will include withdrawals (see Withdrawals from the Trial and Losses to Follow-Up).
iv) Those participants who discontinued treatment are those who actively withdrew or were withdrawn from treatment (see Withdrawals from Intervention).
