Our participation in trial is important

Vaccine not important to us

- We’re still getting special attention.
- Our child is healthy and we expect no problems.
- Children in general do well without.
- Are we in the trial at all?

Vaccine important to us

- We’re supporting science with no risk.
- I would have been more worried if child got it.
- My child in specific would have benefitted from the vaccine.
- After so much consideration ending up not getting it!

Uncertain

- We’ve not been giving it attention since we’re controls.
- My motivation has gone down.
- It’s going to be interesting to see the results.
- Maybe our next child will benefit.

Our participation in trial is not important

- We have had the vaccine elsewhere.
- We’ve not been giving it attention since we’re controls.
- After so much consideration ending up not getting it!
- My motivation has gone down.
- Maybe our next child will benefit.
