Figure 1. Study design

1. Signing IC by treating neurologist
2. Treating neurologist signs patient up for study
3. Week -4: Study nurse contacts patient for screening visit
4. Screening visit is reviewed by investigator
5. If eligible, patient is randomized and included in study
6. Week 0: T25FW, 9-HPT, Cognitive testing, BDI, MFIS
7. Week 12: Brain MRI, T25FW, 9-HPT
8. Weeks 24, 36 and 48: T25FW, 9-HPT
9. Week 60: T25FW, 9-HPT, Cognitive testing, BDI, MFIS
10. Weeks 72, 84 and 96: T25FW, 9-HPT
11. Week 108: Brain MRI, T25FW, 9-HPT, Cognitive testing, BDI, MFIS
12. Optional Week 120: T25FW, 9-HPT
