Endotracheal tube (ETT)

Oxygen flow to nebulizer @ 2 LPM

INo Sampling Line

INo chamber primed with 2 ml of study medication at initiation of continuous aerosol

Expiratory limb of ventilator

Inspiratory limb of ventilator

Temp probe

To syringe pump infusing PGE₁

To syringe pump infusing saline

INO

Figure 1:

Nebulizer ~50 cm from the ETT for CMV and ~35 cm from the ETT for HFV

INO Inhaled nitric oxide
