![Graph showing the number of patients by age for women and men. The x-axis represents age in years, ranging from 0 to 56-68. The y-axis represents the number of patients, ranging from 0 to 45. The graph shows a peak in the number of patients for both women and men in the 18-25 age group. Women's peak is slightly higher and occurs earlier than men's. After the peak, the number of patients decreases for both genders.]
