Pre-Implementation
Jun 2010 – Jan 2011
- Identified low rates of cancer screening among South Asians in Ontario
- Identified evidence-based implementation strategies to promote use of cancer screening
- Developed relationships with key stakeholders

Phase I
Jan 2011 – Sep 2011
- Conducted concept mapping to identify barriers to cancer screening for South Asians from multiple stakeholder perspectives
- Developed relationships with a broad range of stakeholder organizations
- Promoted inter-organizational communications

Phase II
Sep 2011 – Aug 2013
- Conducting resource mapping to inform the adaptation of evidence-based implementation strategies selected by organizations
- Formalizing inter-organizational networks to form an advisory group
- Encouraging participatory decision-making, conflict resolution, team building

Phase III
- Implement the adapted strategies to increase cancer screening among South Asians and evaluate the implementation, service and client outcomes
