Radical prostatectomy

Biochemical recurrence

- Radiation-resistant local recurrent tumors
- Remote micro-metastases

Gleason score \( \leq 7 \) and Positive surgical margin and PSAV < 0.38

SRT Success group

SRT monotherapy

Negative surgical margin or PSAV \( \geq 0.8 \)

Recurrence group

Combination of SRT and short-term ADT

Negative surgical margin and PSAV \( \geq 0.8 \)

Non-response group

ADT monotherapy
