A. An MRI image showing differences in VP/T distribution.

B. A graph showing VP/(VP+T) values for different conditions:
- controls
- p.G31A
- p.D132A
- compound p.D132A
- p.G135E
- TSEN54 A307S

C-F. 3D renderings of VP, T, and medulla for:
- p.G31A 3 months
- p.D132A 11 years
- p.D132A + deletion 6 days
- control 2 years

Legend: VP, T, medulla

Statistical significance: p<0.01
