**Fig. 1**

A. Schematic of T40RW (441aa) showing phosphorylation sites S199, S202, T205, T212, S214, S262, and S396.

B. Western blot analysis showing normalized levels of phospho-T40RW with Vector, PTEN-WT, and PTEN-CG conditions.

C. Bar graph showing normalized levels of phospho-T40RW with error bars indicating statistical significance (*) and (**).
