**Graph Description**

The graph illustrates the relationship between experiment number and iAUC for different categories labeled as LD, LR, TD, and TR. Each category is represented by a distinct line and marker style:

- **LD**: Blue triangles (▲)
- **LR**: Green triangles (▼)
- **TD**: Red triangles (◆)
- **TR**: Cyan arrows (→)

The x-axis represents the experiment number, while the y-axis represents the iAUC. Error bars are included to indicate the variability or uncertainty in the measurements.
