The diagram illustrates the comparison of different trophic categories:

- **Autotrophy**
  - **Light het**
  - **Dark het**
  - **Mixotrophy**

Each category is represented by a bar, and the values within each bar indicate the data points for each category. The data points are as follows:

- **Autotrophy - light het**: 3, 2, 0, 0
- **Autotrophy - dark het**: 28, 38, 60, 58
- **Autotrophy - mixotrophy**: 22, 94, 98, 151

The values for each category are depicted on the y-axis, and the x-axis represents the trophic category.
