Assessment for eligibility (n = 1153)

- Excluded (n = 238)
  - Child too old/young
  - Parents not speaking German
  - Families with more than one child (the other child is not eligible for the study)

- Not “Interested” (n = 633)
  - Families that did not actively come forward

Randomized (n = 282)

- Allocated to prevention (n = 186)
  - Received allocated program (n = 144)
    - Did not receive allocated program (n = 42)
      - reason: declined participation

- Allocated to control group (n = 94)
  - Received allocated condition (n = 94)

Lost to follow-up:
- Not reachable anymore or declined participation at
  - FU1: n = 1
  - FU2: n = 1

- Not reachable anymore or declined further participation at
  - FU1: n = 2
  - FU2: n = 2

Analyzed: n = 186
