Pretreatment slurry

- Pressing and centrifugation

  - Pressed pellet
    - 3 times hot water wash
      - Washed pressed pellet
        - Divide 50:50
          - Dried pellet P1
            - Physico-chemical characterisation
          - Wet pellet P2
          - Supernatant S2
            - Enzyme digests

  - Supernatant
    - Freeze drying
      - Dry supernatant
        - Divide 50:50
          - Supernatant S1
            - Physico-chemical characterisation
