Figure 1: Results of seronegative blood donors in groups A, B and C

Total Number of patients n=25117

Serology positive n=872

Total 908 abnormal tests

Anti HCV n=458
HBsAg n=385
Anti HIV n=25
VDRL n= 87
Malaria by ICT n=3

Serology negative n=24245

Markedly elevated ALT n= 207

Minimally elevated ALT n=2874

ALT within reference range n=21164

HBV DNA tested in n=100 subjects None detected

HBV DNA tested in n=12 subjects None detected

HBV DNA tested in n=88 subjects None detected
