Figure 5

A. Western blot analysis for Best1, Syt4, Munc18-1, Vamp2, and GFAP proteins under control conditions and Best1-shRNA conditions.

B. Graph showing the relative CFP/YFP ratio over time for different treatments: Control, Conc.A, TeNT, and Hyper.

C. Bar graph comparing the relative CFP/YFP ratio for different treatments: CTL, Conc.A, TeNT, and Hyper.
