**Figure 1:**

**A** and **B** show the comparison of Plasma CRP and Plasma Leptin levels between SHR rats treated with vehicle control and SHR rats treated with Timed Daily Bromocriptine. The data indicates a significant difference (*P* < 0.05) in both parameters.

**C** and **D** display the levels of Plasma Adiponectin and Plasma Norepinephrine, respectively. Both parameters show a significant increase (*P* < 0.0001 for Adiponectin and *P* < 0.02 for Norepinephrine) in the treated group compared to the control.

**Legend:**
- **SHR rats treated with vehicle control**
- **SHR rats treated with Timed Daily Bromocriptine**
