Proposed Tiered Analysis

Comparison #1

IBD vs IBS

+ = presence of IBD   - = presence of IBS

SVM: sensitivity = 0.92, specificity = 0.98
ratioscore: sensitivity = 0.93, specificity = 1.00

Comparison #2, if IBD+

CD vs UC

+ = presence of CD   - = presence of UC

SVM: sensitivity = 0.89, specificity = 0.92
ratioscore: sensitivity = 0.98, specificity = 1.00
