Benefits (index) i.e. incremental benefits, including equity benefits, to Israel’s population

Total Cost i.e. incremental total cost to Israel’s health system, in millions of shekels (annual)

Figure 4. Value for Money Chart, after 4 technologies selected

+ Quality of Evidence where the larger the bubble the higher the quality of evidence

+ X-factors i.e. not elsewhere included, e.g. strategic or legal factors, etc, where technologies with X-factors are denoted by lighter bubbles (and those without by darker bubbles)
