Sample of households

n = 17,698

Subject unable to answer n = 1,569
Refusals n = 6,028
No answers n = 3,059
Numbers not allocated n = 1,039

Interviewed n = 6,003 (33.9%)

Healthy

n = 1,700

Not willing to participate in the 2nd phase n = 260

Contacted n = 1,440

Subject unable to answer n = 46
Refusals n = 72
No answers n = 241
Numbers not allocated n = 36

Interviewed n = 1,025

Current asthma

n = 405

Age criterion not met n = 385
IPAQ or CARAT not valid n = 70

Considered for analysis n = 606

Possible asthma

n = 707

Not willing to participate in the 2nd phase n = 55

Contacted n = 652

Subject unable to answer n = 16
Refusals n = 50
No answers n = 14
Numbers not allocated n = 13

Interviewed n = 559

No symptoms, not taking asthma medication and no asthma medical appointment in the previous 12 months n=154

Current asthma

n = 405

Age criterion not met n = 174
IPAQ or CARAT not valid n = 60

Considered for analysis n = 203
