Figure 1: Conceptualisation of systematic review of the epidemiology of anaphylaxis

- Condition: Anaphylaxis
- Study designs:
  - Systematic reviews +/- meta-analyses
  - Cohort studies
  - Cross-sectional studies
  - Case-control studies
  - Routine healthcare studies
- Outcomes:
  - Incidence:
    - Incidence rate
    - Cumulative incidence
  - Prevalence:
    - Point prevalence
    - Period prevalence
    - Lifetime prevalence
  - Risk factors
  - Case-fatality rate
