Figure 1. Study authors and results of contact attempts

Authors of studies with discordant data (n = 14)
Studies with discordant data (n=17)

Authors initially queried (n = 66)

Authors of studies with insufficient data (n = 52)
Studies with insufficient data (n = 60)

Authors contacted (n = 15)

Authors providing data (n = 10)

Had additional questions (n = 2)
No data to contribute (n = 1)
Unable to send until later (n = 2)

Authors queried 2 times (n = 56)

Authors contacted (n = 21)

Authors providing data (n = 13)

Did not provide data (n = 1)
Looking for data (n = 3)
No access to data (n = 1)
Referred to alternate author who did not provide data (n = 2)
Unable to send until later (n = 1)

Authors queried 3 times (n = 43)

Authors contacted (n = 9)

Authors providing data (n = 5)

Did not provide data (n = 1)
No access to data (n = 1)
Referred to alternate author who did not provide data (n = 1)
Unable to send until later (n = 1)

Total authors providing data (n = 28)
