PsycINFO database searches: Eating Disorder Inventory, Eating Attitudes Test
\((N = \text{EDI 873; EAT 601})\)

Include English-language empirical journal articles, books/book chapters, theoretical articles, review articles, case studies, dissertations, and meta-analyses
\((n = \text{EDI 283; EAT 215})\)

Failed to provide score reliability information
\((n = \text{EDI 155; EAT 93})\)

Cited reliability from previously published research or stated that the measure had been found to be reliable
\((n = \text{EDI 54; EAT 44})\)

Reported reliability information for the total scale score or one or more subscale scores
\((n = \text{EDI 74; EAT 78})\)

Used a different measurement structure
\((n = \text{EDI 9; EAT 7})\)

Only reported a range of reliability coefficients
\((n = \text{EDI 10})\)

Only reported test-retest reliability and were thus analyzed separately
\((n = \text{EDI 5})\)

Final inclusion for internal consistency reliability generalization analysis
\((n = \text{EDI 55; EAT 71})\)
