**a**

Attention/psychomotor composite score vs. CDR SB scores.

- Equation: \( y = -1.2955x + 96.31 \)
- \( R^2 = 0.5822 \)

**b**

Learning/working memory composite score vs. CDR SB scores.

- Equation: \( y = -2.1334x + 78.688 \)
- \( R^2 = 0.7578 \)
