Calibration curve bupropion
Linear regression \( \frac{1}{x^2} \) weighting: \( y = 0.0076x + 0.00086 \) \( r = 0.9982 \)

(a)

Calibration curve hydroxybupropion
Linear regression \( \frac{1}{x^2} \) weighting: \( y = 0.00122x - 0.000599 \) \( r = 0.9982 \)

(b)
