The graph compares the average effective dose ($E_{ave}$ in mSv a$^{-1}$) for various medicinal plants from Ghana and Serbia. The x-axis represents different medicinal plants, while the y-axis shows the dose in mSv a$^{-1}$. The plant categories include Lippia multiflora, Cassia sieberiana, Bridelia ferruginea, Monodia whitei, Blighia sapida, Alstonia boonei, Khaya ivorensis, and Herbal Tea.
