Figure 7: Labour Productivity Convergence across Indian states, 2001-02 – 2007-08

![Graph showing labour productivity convergence across Indian states (2001-02 to 2007-08). The graph plots the growth rate of Y/L from 2001-02 to 2007-08 against the log of Y/L for 2001-02. Various Indian states are represented by markers, and a linear trend line is fitted to the data. The equation of the trend line is y = 2.2311x - 19.513.](image-url)
