**Year One**: Sites agree to join initial study, MOUs signed, software development begins, and baseline site.

**Year Two**: Sites continue with adaptation, adoption and implementation processes.

Feedback reports, follow up phone calls and emails between participants and research team; some joint external presentations by researchers and participants.

Participant teams self-design and finalize CM protocols; researchers provide assistance (as needed).

Research team provides feedback reports, on-site coaching and TA.

Practitioner teams consider feedback; some revised. Follow-up site-visits.
