**A**

Graph showing IL-17 mRNA levels over time (2h, 6h, 12h) for Control, IL-10, LPS, and LPS+IL-10 groups. Asterisks indicate statistical significance.

**B**

Bar chart comparing IL-17 mRNA levels with treatments of 1ng, 10ng, and 100ng. Asterisks indicate statistical significance.

**C**

Graph showing IL-17 mRNA levels for IL-10−/− and WT mice. Asterisks indicate statistical significance.

**D**

Immunofluorescence images of F4/80, IL-17, DAPI, and Merge for IL-10−/− and WT mice. Scale bar is 200x.

**E**

Graph showing RORγt mRNA levels for IL-10−/− and WT mice. Asterisks indicate statistical significance.

**F**

Immunofluorescence images of F4/80, RORγt, DAPI, and Merge for IL-10−/− and WT mice. Scale bar is 200x.
