Figure 2. Adams III, et al.

(A) Western blot analysis showing the expression of Tiam1, Rac1, Rac1-GTP, and α-Actinin under si Ctrl and si Tiam1 conditions.

(B) Bar graph comparing the number of cells traversed under si Ctrl and si Tiam1 with p<0.05.

(C) Western blot analysis similar to (A) for MDA-MB 231 cells.

(D) Bar graph similar to (B) for MDA-MB 453 cells.

(E) Western blot analysis for Tiam1, Rac1, Rac1-GTP, α-Tubulin, and α-Actinin under Ctrl, FL Tiam1, and Rac1(61L) conditions.

(F) Bar graph similar to (B) for the number of cells traversed under Ctrl, FL Tiam1, and Rac1(61L) with p<0.05.
