Screening of patients \( n = 1976 \)

Septic shock \( n = 191 \)

Included \( n = 152 \)

Excluded for absence of shock \( n = 1785 \)

No venous blood sample within 72 first hours of shock \( n = 39 \)

Rate of ScvO2 assessment in septic shock: 80%

Survivors \( n = 91 \)

Non survivors \( n = 61 \)
