Figure 3.

The bar chart illustrates the 1-month survival and 1-month CPC 1-2 for different initial cardiac rhythms:

- **Asystole**: Low survival and CPC 1-2 rates.
- **PEA**: Moderate survival and CPC 1-2 rates.
- **pulseless VT**: High survival but low CPC 1-2 rates.
- **VF**: Highest survival and CPC 1-2 rates.

The y-axis represents the percentage (%), while the x-axis shows the initial cardiac rhythms.
