Septic SIRS

Subsequent Infection
No subsequent infection

% of CD4+ cells that are BTLA+

Healthy Control
SIRS Patient - Subsequent infection developed
SIRS Patient - No subsequent infection developed
Septic Patient

BTLA

Healthy control level

% of CD4+ cells that are BTLA+

SIRS Patients

No infection Subsequent Infection

% of CD4+ cells that are BTLA+

Septic Patients

No infection Subsequent Infection

Total Critically-ill Patients

Hospital LOS (days)

R = 0.504, p = 0.001

Total Critically-ill Patients

% of CD4+ cells that are BTLA+

# CD4+ Lymphocytes (10^9 cells/mL)
