(a) Amplitude of Focal and Arm-level SCNAs

- Box plot showing distribution of copy number change for Focal SCNAs and Arm-level SCNAs.
- Highlighted with red cross indicating high amp threshold.
- Low amp threshold indicated by green dashed line.

(b) Length Distribution of SCNAs

- Histogram showing fraction of segments vs length (fraction of chr arm).
- Separate bars for Focal SCANs and Arm-level SCANs.
- Dashed green vertical line indicates cut-off point.

(c) Visual representation of data:
- All Data
- Arm-level SCANs
- Focal SCANs
