Mutations in CGC genes versus non-recurrent mutations in nonCGC genes in whole genome/exome projects.

Recurrent mutations versus non-recurrent mutations in Whole-genome/exome projects.

Manually curated driver mutations in Cosmic versus rest of mutations in Cosmic.

Manually curated driver mutations in Cosmic versus polymorphisms.

Recurrent in more than 5 samples versus polymorphisms.

Recurrent mutations in Cosmic versus polymorphisms.

Recurrent mutations in Cosmic versus non-recurrent mutations in Cosmic.

Recurrent versus non-recurrent mutations in Cosmic.

Mutations in CGC genes versus non-recurrent mutations in nonCGC genes in whole genome/exome projects. *Excluding mutations used to train CHASM.
