Figure S1

(a) Scatter plot showing the relationship between variance and counts for different datasets.

(b) Scatter plot with a focus on a specific region.

(c) Receiver Operating Characteristic (ROC) curve with true positive rates and false positive rates for different methods: BayMeth-SssI, BayMeth-noSssI, and BayMeth-calcSssI.

Key:
- BayMeth-SssI
- BayMeth-noSssI
- BayMeth-calcSssI
