Figure S2: Purification of heterologously expressed Twm1. Coomassie blue stained SDS-PAGE of recombinant 6x His-tagged Twm1 purified from *E. coli* BL21 (DE3) cells. Sample fractions of purified Twm1 (lanes 4 and 5) were separated on 10% NuPAGE® Bis-Tris gels (Life Technologies); equivalent fractions from the empty vector purification (EVP) were also analyzed (lanes 2 and 3). Protein size was estimated using the Novex® Sharp Protein Standard (Life Technologies; lane 1).
