RF CGs of Pathway Enrichment

- Biosynthesis of unsaturated fatty acids
- Stilbenoid, diarylheptanoid and gingerol biosynthesis
- Flavonoid biosynthesis
- Fatty acid elongation
- Fatty acid metabolism
- Phenylpropanoid biosynthesis
- Metabolic pathways
- ABC transporters
- Biosynthesis of secondary metabolites
- Nitrogen metabolism
- Tryptophan metabolism
- Arginine biosynthesis
- Ubiquinone and other terpenoid-quinone biosynthesis
- Protein export
- Pentose and glucuronate interconversions
- DNA replication
- Carbon fixation in photosynthetic organisms
- mRNA surveillance pathway
- Linoleic acid metabolism
- Other glycan degradation
