Additional file 4: Distribution of the dependent variable

Dependent Variable: EuroQoL 5D visual analogue scale measure of health-related quality of life

Mean = 63.97  
Range = (5 – 100)
Median = 65.00  
Standard deviation = 15.34

Figure S4.1. Histogram of the dependent variable

Histogram of EuroQoL VAS measure of HRQoL

Figure S4.2. Q-Q plot of the transformed (standardized) dependent variable
