Additional Figure 3

A  Cancer Specific Survival (CSS)
   Wei Low risk (n = 63)
   Wei High Risk (n = 51)
   \( p = 0.027 \)

B  Cancer Specific Survival (CSS)
   M0, Wei Low risk (n = 52)
   M0, Wei High Risk (n = 34)
   \( p(M0) = 0.113 \)
   M1, Wei Low risk (n = 11)
   M1, Wei High Risk (n = 17)
   \( p(M1) = 0.288 \)

C  Cumulative incidence of progress
   Wei High Risk (n = 34)
   Wei Low Risk (n = 52)
   \( p = 0.099 \)

Survival time from diagnosis (months)
