Supplementary Figure 1. Interleukin-6 (IL-6) and C-reactive protein (CRP) at 18 years and bone mineral density (BMD - mg/cm²) at 22 years, males.

Supplementary Figure 2. Interleukin-6 (IL-6) and C-reactive protein (CRP) and bone mineral density (BMD - mg/cm²) at 22 years, males.
Supplementary Figure 3. Interleukin-6 (IL-6) and C-reactive protein (CRP) at 18 years and bone mineral density (BMD - mg/cm²) at 22 years, females.

Supplementary Figure 4. Interleukin-6 (IL-6) and C-reactive protein (CRP) and bone mineral density (BMD - mg/cm²) at 22 years, females.
Supplementary Figure 5. Adiponectin (µg/mL) at 18 and 22 years and bone mineral density (BMD - mg/cm²) at 22 years, males.

Supplementary Figure 6. Adiponectin (µg/mL) at 18 and 22 years and bone mineral density (BMD - mg/cm²) at 22 years, females.
